- Harvest the matured crops as early as possible and keep them in safe places.
- Provide support to young fruit plants and vegetables to prevent lodging.
- If threshing is not possible, the harvested produce should be covered properly.
- For protection from untimely rains, the stored grains should be shifted to safe storage.
- Avoid irrigation and any kind of chemical spray.
- Make arrangements to drain out excess rainwater from the fields.
- Cattle should be kept in safe places in cattle sheds. Keep farm animals indoors during thunderstorms and lightning.
- Use hail nets or hail caps in fruit orchards and vegetable plants to protect them from mechanical damage.
